

# Chemical Inventory: Knowing Chemicals in Products & Supply Chains

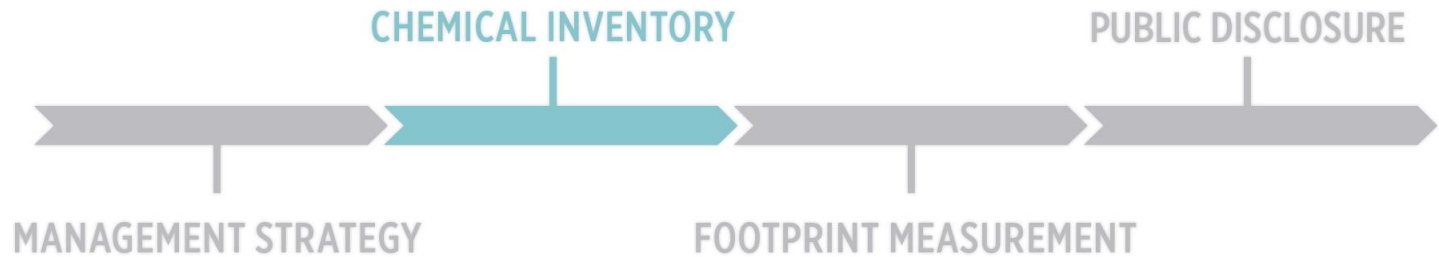

Facilitator: Sally Edwards, Senior Research Associate  
Lowell Center for Sustainable Production, University of  
Massachusetts, Lowell

Speaker: Clinton Boyd, Principal Scientist  
Green Chemistry & Sustainability  
Global Sustainability Initiatives Team, Steelcase, Inc.

December 9, 2015

## CFP Assessment Tool

### Manage

- Chemicals on RSL

### Inventory

- Identify additional CoHCs

### Reporting

- Engaging suppliers

### Data Systems

- How are chemical data managed?

### Assurance

- Ensuring conformance with reporting

## Small Group Activity

How does your organization identify chemicals of high concern (beyond legally restricted)?

What's your greatest challenge:

- a) collecting and verifying data from suppliers or
- b) sharing data at the business-to-business or business-to-consumer level?
